Subject: RE: Draft - Scope of Work for Source Tracing at KCIA

Please do not proceed with any source control activities that will be changed to the Airport. I will solidify the required activities and schedule with Ecology.

Subject: Draft - Scope of Work for Source Tracing at KCIA

Rick and Jeff;

I have developed a preliminary scope of work for the next steps for KCIA source control. Tasks 1 to 3 can be conducted concurrently. Tasks 4 and 6 are contingent on the results from previous tasks. Task 5 can be conducted independently but the scope will depend on the amount of information that is currently available.

(b) (6) but I wanted to get this out for review.

I will check back in a couple of weeks.

Bruce
